Detailed Action

A. Claim and Specification Objections

Applicant acknowledges the rejections of 35 U.S.C. § 112, second paragraph; the rejection of claim 40 under 35 U.S.C. § 112, first paragraph; and the art rejection under 35 U.S.C. §102/103, as withdrawn.

The Examiner objects to the Table A comprising SSR data inserted on page 15 of the specification at line 16 under 35 U.S.C. § 132 as new matter. Applicant objects to the Examiner's objection of new matter however in order to expedite prosecution Applicant herein cancels the above-referenced material that had been filed March 11, 2003, thus alleviating this rejection.

B. Newly Submitted Claims:

Applicant acknowledges the addition of new claims 59 through 88, as specifically stated by the claims faxed by Examiner David Fox on November 15, 2002 and the new sample claim submitted by Supervisory Patent Examiner Amy Nelson via e-mail on August 7, 2003 and revised via telephone on August 25, 2003 and September 2, 2003. The new claims do not add new matter as there is support for the claims in the originally filed specification. Support for the specific items noted in the claims faxed by Examiner Fox can be found within the specification for *Bacillus thuringiensis* on page 27; for imidazolinone, sulfonylurea, glyphosate, glufosinate, L-phosphinothricin, triazine, and benzonitrile on pages 30-31; for phytase on page 31; for stearyl-ACP desaturase, fructosyltransferase, levansucrase, alpha-amylase, invertase and starch branching enzyme on pages 31-32; and for waxy starch and increased amylose starch on pages 20 and 32.

Rejections Under 35 U.S.C. § 112, Second Paragraph

Claims 52 and 56-58 stand rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention.

Claims 52, 56, and dependents thereon, stand indefinite for improper Markush terminology. Although not acceding to the Examiner's rejection, in order to expedite prosecution Applicant has canceled claims 52, 56, and dependents thereon, thereby rendering this rejection moot.

In light of the above amendments and remarks, Applicant respectfully requests reconsideration and withdrawal of the rejections under 35 U.S.C. § 112, second paragraph.

Rejections Under 35 U.S.C. § 112, First Paragraph

Claims 50-54 stand rejected under 35 U.S.C. § 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, Applicant had possession of the claimed invention. The Examiner states that claim 50 recites "at least 50% genetic contribution from" and claims 51-53, and dependents thereon, redite "backcross conversion" in which there is no basis in the specification for either term therefore constituting new matter.

Although not acceding to the Examiner's rejection, to expedite prosecution Applicant has canceled claims 50-54, thereby rendering this rejection moot. Applicant has added new claims 59-88, as specifically stated by the claims faxed by Examiner David Fox on November 15, 2002 and the new sample claim submitted by Supervisory Patent Examiner Amy Nelson via e-mail on August 7, 2003 and revised via telephone on August 25, 2003 and September 2, 2003. The new claims do not add new matter as there is support for the claims in the originally filed specification as described *supra*.

Claims 9-10, 15-16, 28-29, 37-39, 42 remain rejected and claims 50-55 and 58 stand rejected under 35 U.S.C. § 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, Applicant had possession of the claimed invention, for the reasons of record stated in the last Office Action on pages 3-5.

Applicant traverses this rejection. Nevertheless, in order to expedite prosecution claims 9-10, 15-16, 28-29, 37-39, 42, 50-55 and 58 have been canceled and new claims 59-88 have been added as disclosed *supra*. Applicant requests reconsideration.

Applicant respectfully traverses this rejection. The Applicant has provided assurance that at least 2500 seeds of inbred maize line PHOR8 have been deposited with the ATCC. In view of this assurance, the rejection under 35 U.S.C. § 112, first paragraph, should be removed. (MPEP § 2411.02). It is respectfully submitted that Applicant's claims are sufficiently described and enabled by the specification.

In light of the above amendments and remarks, Applicant respectfully requests withdrawal of the rejections to claims 9, 10, 15, 16, 37-39, 42, 50-55, and 58 under 35 U.S.C. § 112, first paragraph.
